About Java Jive

As Java Jive, we like to play our music with a jazzy, swinging style. Our unique sound combines female vocal harmony with a solid foundation of upright bass, jazz guitar, woodwinds and percussion. We play songs from the 30's and 40's written or made famous by greats such as Duke Ellington, Cole Porter, and Nat King Cole. To liven things up we also include gems from other eras and genres by artists such as The Beatles, Queen, Bob Wills and the Texas Playboys, and Van Morrison.

Who is Java Jive?

The musicians in Java Jive bring a wealth of talent to the group. Past experiences range from the GR Symphony Chorus to folk groups to rock bands to solo performances to music instructors. Members include:

Mary Lewandoski: lead vocals

Vicki Uren: harmony vocals

Pete Lewandoski: acoustic and electric guitars

Matt Porter: upright bass

Jim Saltsman: drums and percussion

Rolly Smith: saxophones and wind controller
